Ventilation: Yes

Reinforcement areas: Knees, Rear, Pockets

Size + Quantity: S(10), M (15), L (15), X (25)L, XXL (15), XXXL(10)

2.6 Tactical Pants Black

Tactical Pants

These versatile pants excel as true all-rounders, performing well across various activities, terrains, and weather

Rugged flexibility.

The P-40 All-Terrain Gen.3 pants are built for rugged movement across harsh terrain while maintaining flexibility and comfort during extended wear. This is achieved by incorporating three high-performance materials.

Breathable and durable face fabric.

The P-40 All-Terrain Gen.3 Pants feature a PolyCo Ripstop blend main fabric that delivers exceptional breathability and rapid drying capabilities.

Stretch panels for extra flexibility.

We integrated stretch panels in areas where the body moves and bends most, allowing these pants to follow your every movement.

Abrasion resistant reinforcement.

In areas requiring extra durability, we integrated CORDURA® fabric for superior abrasion protection.

Streamlined knee protection.

The P-40 All-Terrain Gen.3 Pants offer reliable yet comfortable knee protection that allow a modular setup depending on your needs.

Abrasion-resistant front layer.

The first layer of knee protection features CORDURA® fabric lining for superior abrasion resistance.

Choose Impact Protection or Extra Cushioning.

Upgrade the pants with UF PRO 3D Knee Pads for enhanced impact protection or added cushioning during kneeling.

Lightweight protection against penetration.

To protect against sharp objects like needles or screws, you can upgrade the 3D Knee Pads with UF PRO Solid Pads.

An instant waist fit.

A unique waist construction keeps these pants securely in place, even during rapid movement.

Our proprietary Waist/Flex system ensures a comfortable fit while keeping gear in your pockets stable and secure.

Custom fit for your unique waist size.

Thanks to elastic stretch side panel, these pants adapt to your exact waist size for a perfect, smooth fit—no bunching or wrinkling.

Secure lower back fit.

A cushioned 3D pad in the lower back area keeps the pants stable and in place during movement. This padding also provides comfort by creating a buffer between your skin and the belt.

Waist/Flex Belt compatible.

The optional Waist/Flex Belt provides additional stability with reinforced sides, ensuring the pants stay secure even when carrying gear. Compatible with holsters, it doubles as an under-belt for maximum versatility.

Store all your essentials. And more.

Eleven strategically placed pockets keep all your essentials within easy reach—from large gear to small items.

Size + Quantity: S(10), M (15), L (15), X (25), XXL (15), XXXL(10)

2.7 Pants Orange

Pant Men's

A bib offering efficiency for the ascent without sacrificing performance.
